About Whitehill Wind Farm

Eurowind Energy are seeking planning consent for Whitehill Wind Farm, located within the south-eastern extents of Clyde Muirshiel Regional Park (CMRP) across Lairdside Hill and Greenside Hill, approximately 3.8 km east of Largs and 3.2 km north-west of Kilbirnie. The Proposed Development will comprise up to five wind turbines with blade tip heights of up to 200 metres, and associated infrastructure.

Come along to discover more about Whitehill Wind Farm, meet the project team and find out more about the proposed development and its potential contribution to the region's renewable energy future. Come and discover our project, meet the team and explore the proposals in more detail.

The information available at the in-person events is also available on the project website and can be accessed via www.whitehillwindfarm.com.
